Nitai Gauramani
Full-Stack Developer

Computer science student at École 42 with strong experience in C/C++, systems programming, and full-stack development. I've built projects ranging from low-level graphics and networking to web applications and AI agents using RAG pipelines. I'm driven by problem-solving, clean design, and building meaningful digital experiences.

Skills

- C/C++98
- Python
- Javascript
- Typescript
- Node.js
- React
- FastAPI
- PostgreSQL
- Docker
- Linux/Bash
- Git

Languages

- English
- Tamil
- French

Education

2024 - Present
École 42, Paris
Digital Technologies Architect (RNCP 6)

- Intensive peer-to-peer curriculum focused on software engineering, systems programming, and full-stack development
- Completed projects in C, graphics, networking, and system design
- Built full-stack apps and AI agents using RAG pipelines and automation
- Developed strong autonomy, collaboration, and problem-solving skills through real-world project workflows

2022 - 2024
Primrose Schools, Chennai, India
Higher Secondary (11-12th Grade)

- Subjects: Math, Physics, Chemistry, Computer Science, and English
- Appointed Assistant School Pupil Leader (Vice Head Boy)
- Won Zonal Debate Competition + Best Speaker Award
- 1st Place, Primrose Intraschool Chess Tournament
- Academic performance among top of the class

Experience

2021 - 2022
ISKCON Ministry of Education | Mayapur, India
Web Developer

- Designed and improved the layout and structure of iskconeducation.org
- Created user-friendly pages and optimized content presentation
- Assisted with website updates and content organization
- Gained early real-world experience collaborating on a live, public-facing site
